Dr. Kimberley Tan; BSc (Med), MBBS, FRANZCO trained in Ophthalmology at the Royal Victorian Eye and Ear Hospital, Melbourne. He then undertook fellowships in Cheltenham, UK & at the British Columbia Children's Hospital, Vancouver. He has been the Head of the Department of Ophthalmology at the Sydney Children's Hospital since 2009 and runs the Neuro-ophthalmology and Adult Strabismus clinic at Royal North Shore Hospital, Sydney. He is a Senior Lecturer at both the University of New South Wales and the University of Sydney. He has been a RANZCO appointed Board examiner in Paediatric Ophthalmology and Strabismus since 2010.

Dr. Fernando Prieto-Diaz is the Director Medico del Instituto Oftalmológico Prieto-Diaz, La Plata- Argentina; Secretario General del Consejo Latinoamericano de Estrabismo-CLADE (2003-2010); Presidente del Centro Argentino de Estrabismo (2004-2006); Editor Jefe de REOP - Revista de Estrabismo & Oftalmología Pediátrica (Desde 2014).

Dr. Paolo Nucci; MD, FEBO completed his medical education at the University of Naples in 1983. He then went on to pursue a Residency Program at the University of Milan in 1988 followed by a Fellowship in Pediatric Ophthalmology & Strabismus at the University of Chicago in 1989. He is currently a Professor at the University of Milan & is the Chairman of the University Eye Clinic at the San Giuseppe Hospital. He is also the Associate Editor of the European Journal of Ophthalmology and International Ophthalmology in addition to being a former member of the Editorial board of Ophthalmic Genetics. Dr. Nucci is a reviewer of the Archives of Ophthalmology, Ophthalmology, American Journal of Ophthalmology, Journal of Cataract & Refractive Surgery, Ophthalmology, JAAPOS, Graefe Archives & International

Ophthalmology. He has given Lectures in several Universities in Europe, USA and Asia, in addition to authoring 11 Books and 130 papers that have been reported in PubMed. He is the Senior Author of more than 70 publications. He is the President of the Italian Society of Pediatric Ophthalmology and a former member of the Scientific Bureau of the WSPOS.

Dr. Emilio Campos has been working in strabismus for more than 45 years. Coauthored with von Noorden “Binocular Vision and Ocular Motility” in 2002. Was Professor and Chief of Ophthalmology, University of Bologna till December 2018.

Dr. Ramesh Kekunnaya, FRCS; has received his basic medical training from Karnatak Medical College, Hubli and specialized in ophthalmology from Government Medical College, Mysore, India in 1999. He completed a comprehensive ophthalmology fellowship (with special focus on Strabismus and Neuro-ophthalmology) at the L. V. Prasad Eye Institute (LVPEI), Hyderabad followed by a Pediatric Ophthalmology & Strabismus Fellowship (AAPOS accredited) at Jules Stein Eye Institute, University of California, Los Angeles, USA. He also had a short stint at the Moorfield’s Eye Hospital and the Great Ormond Street Hospital for children, London as a part of ICO fellowship. Dr. Kekunnaya is currently the Head of Pediatric Ophthalmology, Strabismus and Neuroophthalmology at Child Sight Institute and Jasti V. Ramanamma Children’s Eye Care Center, LVPEI, Hyderabad and Clinical Assistant Professor Case Western Reserve University Cleveland, Ohio. He is also in charge of the Paediatric Ophthalmology and strabismus fellowship program. He is a member of the American Academy of Pediatric Ophthalmology and Strabismus (AAPOS), World Society for Pediatric Ophthalmology & Strabismus (WSPOS) and American Academy of Ophthalmology (AAO). He is an Executive Bureau member of WSPOS and a member of the Professional Education Committee of AAPOS. Dr. Kekunnaya has presented at various international and national meetings. He was a recipient of the prestigious ‘Achievement award’ from AAO in 2012; in addition to receiving the ‘International Scholar Award’ from AAO in 2014 and the ‘HONOR AWARD’ from AAPOS in 2016. He has authored publications in various peer-reviewed journals and is a reviewer for Ophthalmology, British Journal of Ophthalmology, AJO, Eye, IJO, EJO, Strabismus and JAAPOS. He is also a ‘section editor’ for BJO. He is actively involved in teaching and research activities in the pediatric ophthalmology services. His clinical interests include strabismus, pediatric cataract, vision development, lazy eye and neuro-ophthalmological disorders.

Dr. Monte Del Monte received his medical degree from John’s Hopkins University in 1974. He completed a residency in Pediatrics at the Harvard Boston Children’s Hospital Medical Center and a residency in Ophthalmology at the Johns Hopkins Wilmer Eye Institute. He also completed a postdoctoral fellowship training in pediatric ophthalmology and strabismus at the National Children’s Hospital Medical Center in Washington D.C. Dr. Del Monte has presented 45 invited, guest, keynote and named lectures and published over 100 scientific papers in peer-reviewed journals. He has been the director of the Pediatric Ophthalmology Fellowship training program at the University of Michigan for the past 30 years. He is currently Director of Pediatric Ophthalmology and Adult Strabismus, Skillman Professor of Pediatric Ophthalmology and Professor of Pediatrics and Communicable Diseases at the University of Michigan, in addition to being the Director of Ophthalmology at the Mott Children’s Hospital.

Dr. Venkateshwar Rao pursued his Ophthalmology training at the R.P. Center, All India Institute of Medical Sciences (AIIMS), New Delhi; following which he underwent a fellowship in Strabismus and Neuro-Ophthalmology under Prof. Prem Prakash from the same institute. He then went on to do a 2nd Fellowship in Pediatric Ophthalmology & Strabismus under the tutelage of Prof. Eugene Helveston from the Indiana University Medical Center, Indianapolis, USA. Dr. Rao is a specialist in Pediatric Strabismus, Adult Strabismus and Neuro-Ophthalmology. In addition to his fellowship training, he also visited various Hospitals in the USA. He served as Head of the Pediatric Ophthalmology, Strabismus and Neuro-Ophthalmology service at L. V. Prasad Eye Institute, Hyderabad, India right from the unit's inception in January 1998 & was with L. V. Prasad Eye Institute till February 2006. With his vast clinical and academic experience, Dr. Rao started Shreya Eye Care Center in March 2006 with a mission of providing quality care with compassion in the field of Strabismus, Pediatric eye problems and Neuro-Ophthalmology & is presently the Director of the same. He is a present and past member of several prestigious international organizations including AAO, AAPOS, ISA, AIOS, SPOSI, WSPOS & APAO. Dr. Rao has lectured at various Universities in India, USA, Indonesia, Sri Lanka & Bangladesh, covering several topics of Strabismus, Amblyopia, Congenital Cataract and Neuro-Ophthalmology in addition to having published articles in peer reviewed international journals and presented at various international meetings such as AAO, AAPOS, ESA, ISA, WSPOS, APAO & IOA.

Dr. Cumhuri Sener Graduated from the Hacettepe University Medical School, and finished the residency at the Hacettepe University Department of Ophthalmology in Ankara, Turkey. His Postgraduate research was (a) in vision research at the Netherlands Ophthalmic Research Institute with Henk Spekrijse at Amsterdam, the Netherlands and (b) in strabismus at the Wilmer Institute with David Guyton at Baltimore, USA. He worked at the Hacettepe University Department of Ophthalmology from 1991 - 2014. He volunteered as a visiting faculty in the ORBIS project at Chennai, India in 2002, and also multiple times at Baku, Azerbaijan from 2008 - 2013. He is currently engaged in private practice in Ankara, Turkey. His main fields of interest are Adult and Pediatric Strabismus and Pediatric Ophthalmology.

Professor Alki Liasis PhD, is a consultant clinical scientist in visual electrophysiology. He started his career at the National Hospital for Neurology and Neurosurgery. His background is in medical biophysics, neurophysiology as well as visual electrophysiology. He has undertaken an extensive programme of research through his career investigating the normal visual function and consequences of neurological pathology on the visual pathways in childhood. Countless publications have come from this work and had a direct impact on the management of these children. After 20 years at the Tony Kriss visual electrophysiology unit at Great Ormond Street Hospital for Children London, he recently took up a chair at Children's Hospital Pittsburgh as a Professor of visual electrophysiology.

Dr. Saverio Luccarelli, MD; is an Ophthalmologist in Milan, Italy, and obtained his medical degree and residency at the University of Milan. He completed his training at the Agarwal Eye Hospital in Chennai, India, and in the Cornea Clinic of Professor Busin in Forlì, Italy. He is the Head of the Cornea Service of San Giuseppe University Hospital in Milan. His field of interest is corneal diseases, with a special focus on pediatric cases and novel lamellar keratoplasty techniques. His skills are focused in the diagnosis and surgical treatment of complex eye diseases requiring corneal and anterior

segment surgery, refractive surgery, complex cataract cases and lens implantation challenges. He actively works in the Ophthalmology Residency program, with mentoring and training of young surgeons.

Dr. Matteo Sacchi, MD; trained in Ophthalmology at the University of Milan, and completed his residency at Strong Memorial Hospital, Rochester, and at the Bascom Palmer Eye Institute, Miami. He currently serves as Head of Glaucoma Service in University Eye Clinic, San Giuseppe Hospital, University of Milan. He has been involved in several glaucoma and paediatric ophthalmology clinical trials as PI and sub Inv & is the author of peer-reviewed papers and co-author of the "Childhood Glaucoma", World Glaucoma Association, 2013. Dr. Sacchi is a reviewer of European Journal of Ophthalmology, Medicine & the International Journal of Clinical Ophthalmology and Visual Sciences. His clinical and surgical areas of interest are glaucoma imaging and glaucoma surgery, including shunt and MIGS.
